 AB - SU1240038 A steroid derivative, 3-hydroxy-1,3,5-triene-17-hydrazone of
 formula (I) is new.
 - USE - (I) is useful in medicine as it has hormonal and anti-tumour
 activity.
 - ADVANTAGES - (I) is a new steroid derivative of the estran (sic)
 series having increased anti-tumour activity compared with its
 structural analogues of similar action.
